

# PUNYA: Developing Mobile Linked Data Applications

- ♦ **PUNYA** provides core functionality for developing humanitarian-focused mobile apps
- ♦ Extends **App Inventor** with support for **Linked Data** for easy integration, handling heterogeneous data, and helping with analytics
- ♦ Also includes support for real time notification, processing data streams, and simplified crowdsourcing
- ♦ Partners include International Community of the Red Cross (ICRC), and United Nations Office for the Coordination of Humanitarian Affairs (UN OCHA)
