

Don't Experiment Without It*

57

(submission
number, not
number of
ontologies!!!)

The screenshot shows the Manchester OWL Repository website. The header features the title "Manchester OWL Repository" in large black font, with the subtitle "OWL and OWL-compatible ontologies to fuel empirical work" below it. The navigation bar includes links for "About the repository", "Dataset Creator", "Datasets" (which is highlighted), "Generate custom dataset", and "Repository Crowd Curation", along with a search icon. The main content area displays "ORE 2013 Reasoner Competition" and "ORE 2014 Reasoner Competition". A sidebar on the right lists "BioPortal", "Oxford Ontology Library", and "The Manchester OWL Corpus (MOWLCorp)". The footer contains the "Home URL: http://mow" and "Purpose: Reasoner Ben".
