

# Life Stories as Event-based Linked Data: Case Semantic National Biography

Eero Hyvönen, Miika Alonen, Esko Ikkala, Eetu Mäkelä (Aalto University, Finland)

- **Idea:** **Biographies as a Linked Data service**
- **Research:** Event-based data harmonization using CIDOC CRM
- **Case Study:** Finnish National Biography  
6,300 biographies in a SPARQL endpoint  
116,000 events extracted
- **Demo:** Life stories enriched with other datasets  
Visualization on maps and timelines
