1. Introduction
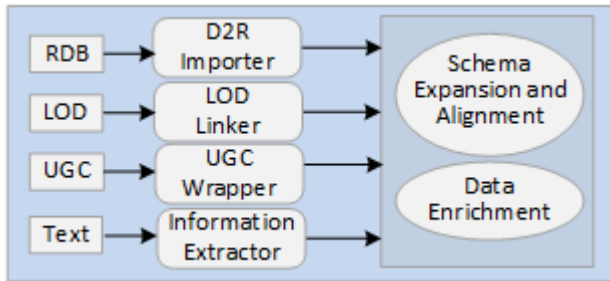

- We present an integrated tool **VKGBuilder** to help users from vertical industries to manage the life cycle of *knowledge graphs(KG)*.

2. Build KGs with VKGBuilder
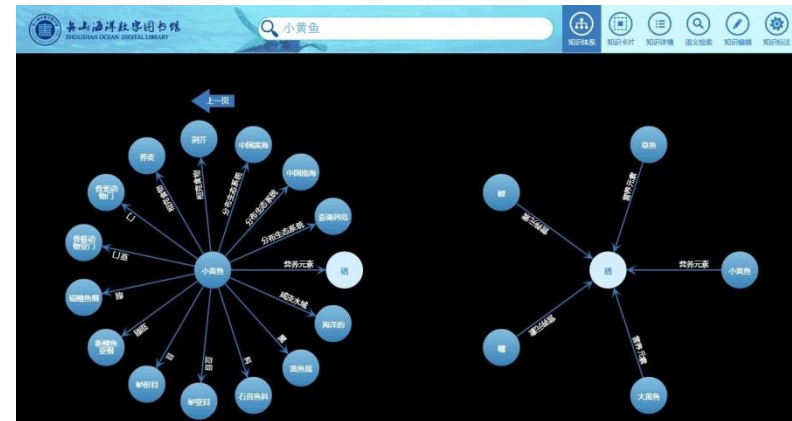

- Integrating data from different types of sources

- Detection and Resolution of Schema Consistency and Data Conflict
- Store KG to Graph DB

4. Real Deployment in ZhouShan Library

http://kd.zsodl.cn

3. Access KGs with VKGBuilder

- Semantic Search

- Explore KG with Card View and Wheel View
