Semantic Health Notice

- **Ground**: SPARQL endpoints
- **Patients**: RDF-hungry people
- **Symptoms**: paralysis, syntax errors, schema mismatch, empty results
  - ➔ *FRUSTRATION and HUNGER !*
- **Diagnostic**: SPARQL queries are toxic to humans
- **Treatment**: use Sparklis to avoid direct contact

  composition: *natural language, full guidance, expressive power, compliance to standards (no empty-results)*

Come and get the cure ! (free trial)
